WOOD SCREW ESSDRIVE COUNTERSUNK HEAD, STAINLESS STEEL A2

Wood

AREA OF USE

ESSDRIVE Wood screw are intended for most installation work in chipboard, wood, plastic, connectors, plugs etc.

DESCRIPTION

The screw is made of stainless steel A2 for highly exposed environments such as marine environments. It's equipped with TX mount/bits. The screw has a patent head shape that minimizes splinters and gives a good finish result. For length 70mm and longer it has an extra milling thread direct after the ordinary thread that ease the mounting of longer and larger screws. Underneath the head, the screw has cutting mills that cut the wood fibers and recess the screw into the wood with a smooth surface without splinters. The head also works well in recessed connectors though it doesn't have protruding ribs. The screw fulfills the CE demands according to EN14592.

INSTALLATION INSTRUCTIONS

Recommended rpm: 400-1200/min

Specification

Main Materials	Stainless steel A2
Corrosion resistance class	C4 A2
Application environment	Outdoors

A2 CE
