BOOSTWORLD

Boost Sage 40x80 Mat

Épaisseur 8.5 mm Effet de couleur unie Effet ciment

Code produit: #8b8s

Caractéristiques principales

Épaisseur:
8.5 mm

V-Shade:
V2

Certifications

Informations techniques

Regularity Carachteristics

ISO 10545-2

Length and width: Suitable for
Épaisseur: Suitable for
Straightness of sides: Suitable for
Perpendicularity: Suitable for

ISO 10545-2

Surface Flatness: Suitable for

Propriétés physiques

ISO 10545-3

Water Absorption (in % by mass)-
: $10\% < EV \leq 20\%$

ISO 10545-4

Breaking strenght: $S \geq 600 \text{ N}$
Bending resistance: $R \geq 15 \text{ N/mm}^2$

10545-8

Coefficient of thermal linear expansion:
 $\leq 7 \text{ MK}^{-1}$

10545-9

Thermal shock resistance: Resistant

10545-10

Moisture expansion (in mm/m): $\leq 0.06\%$
(0.6mm/m)

Bond strength/adhesion for improved cementitious adhesives

Bond strength/adhesion for improved
cementitious adhesives: $\geq 1.0 \text{ N/mm}^2$
(Class C2 - EN 12004)

Reaction to fire: A1

Chemical Carachteristics

ISO 10545-13

Resistance to household chemicals and
swimming pool salts: A
Resistance to low concentration of acids
and alkalis: LA
Resistance to high concentrations of acids
and alkalis: HA

ISO 10545-14

Stain resistance: 5
