WOOD SCREW ESSDRIVE, COUNTERSUNK HEAD, ELECTRO ZINC PLATED

Wood

AREA OF USE

ESSDRIVE wood screws are intended for most installation work in chipboard, wood, plastic, connectors, plugs etc. For indoor use.

DESCRIPTION

The screw is made of hardened steel with an electro-zinc plated surface (for indoor use). It's equipped with TX mount/bits. The screw has a patent head shape that minimizes splinters and gives a good finish result. For length 70mm and longer it has an extra milling thread direct after the ordinary thread that ease the mounting of longer and larger screws. Underneath the head, the screw has cutting mills that cut the wood fibers and recess the screw into the wood with a smooth surface without splinters. The head also works well in recessed connectors though it doesn't have protruding ribs.
ESSVE wood screw ESSDRIVE meets the CE requirement according to EN 14592 for dimensions 3.0 – 5.0 mm and ETA-23/0747 for the 6.0 mm dimension.

INSTALLATION INSTRUCTIONS

Recommended rpm: 400-1200/min

Specification

Surface treatment	Zinc plated
Main Materials	Steel
Corrosion resistance class	C1
Application environment	Indoors

Standard Pro Pack
