WOOD SCREW C1 COUNTERSUNK HEAD, BRIGHT ZINC PLATED

Wood

AREA OF USE

ESSVE wood screw is intended for most installation work in particle boards, wood, plastic, plug, etc.

DESCRIPTION

The screw is produced in hardened carbon steel with bright zinc plated surface treatment, and fitted with TX-drive/bits. The screw has one fiber cut that gives a low drive-in torque in wood materials and minimizes splitting. For length 40mm and longer it has an extra milling thread direct after the ordinary thread that ease the mounting. Underneath the head, the screw has cutting mills that cut the wood fibers and recess the screw into the wood with a smooth surface without splinters. The screw fulfills the CE demands according to EN14592.

INSTALLATION INSTRUCTIONS

Recommended rpm: 400-1200/min

Specification

Surface treatment	Zinc plated
Main Materials	Steel
Corrosion resistance class	C1
Application environment	Indoors

C1 CE
