

NOTICE D'INSTALLATION

INSTALLATION INSTRUCTIONS

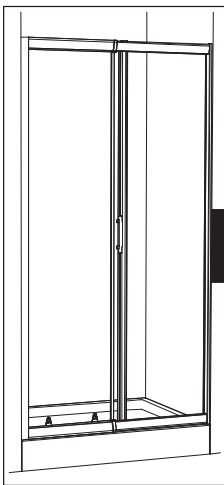

DES591I

IMPORTANT :

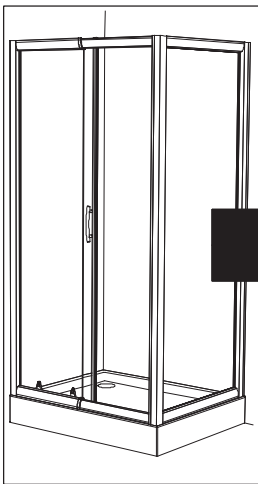

- Le receveur sur lequel vous allez poser la paroi doit être parfaitement lisse et dégraissé. Les montages sans receveur directement sur sol carrelé (à "l'italienne"), ne sont donc pas préconisés pour un montage sans silicone.
- Les murs ne doivent pas avoir de reliefs supérieurs à 2 mm (joint de carrelage ou de décor) afin que les joints d'étanchéité puissent épouser la forme du mur.
- L'utilisation de jets d'hydromassage peut réduire l'efficacité de l'étanchéité sans silicone si ceux-ci sont trop puissants.

IMPORTANT :

- The shower tray should be perfectly level from left to right and front to back as well as thoroughly clean and dry.
- The depth of the grout gap between wall tiles should not exceed 2mm.
- The use of hydromassage jets can reduce efficiency of silicone free sealing if they are too powerful.

AVANT L'INSTALLATION DE VOTRE PAROI, NETTOYER LE RECEVEUR AVEC UN PRODUIT DÉGRAISSANT.

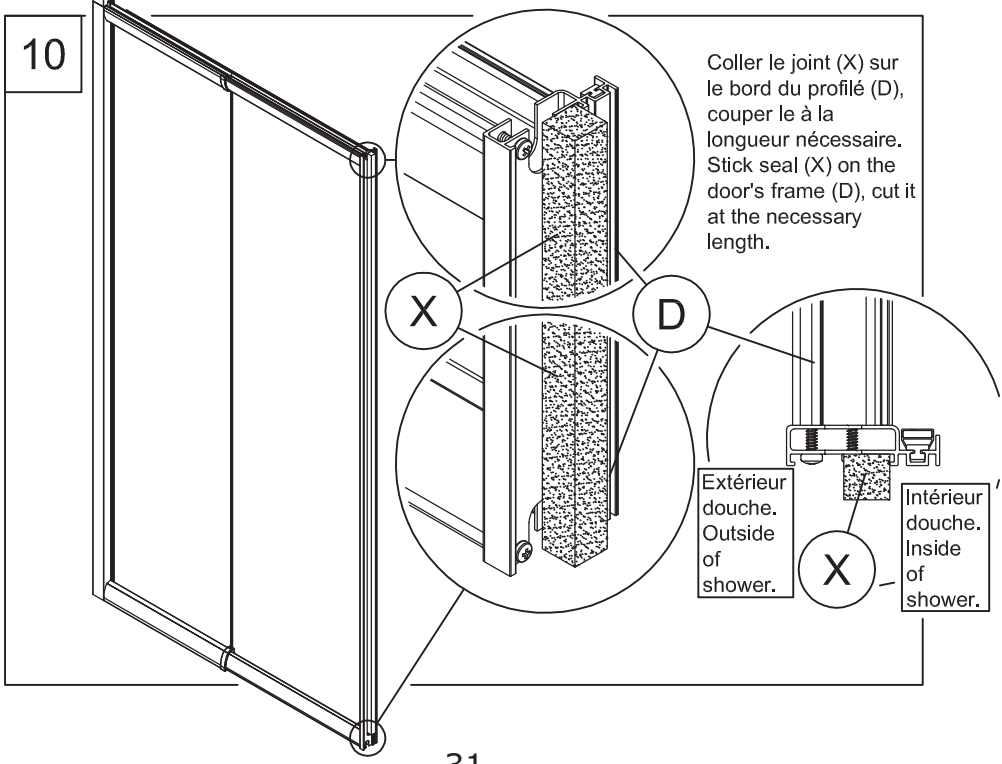

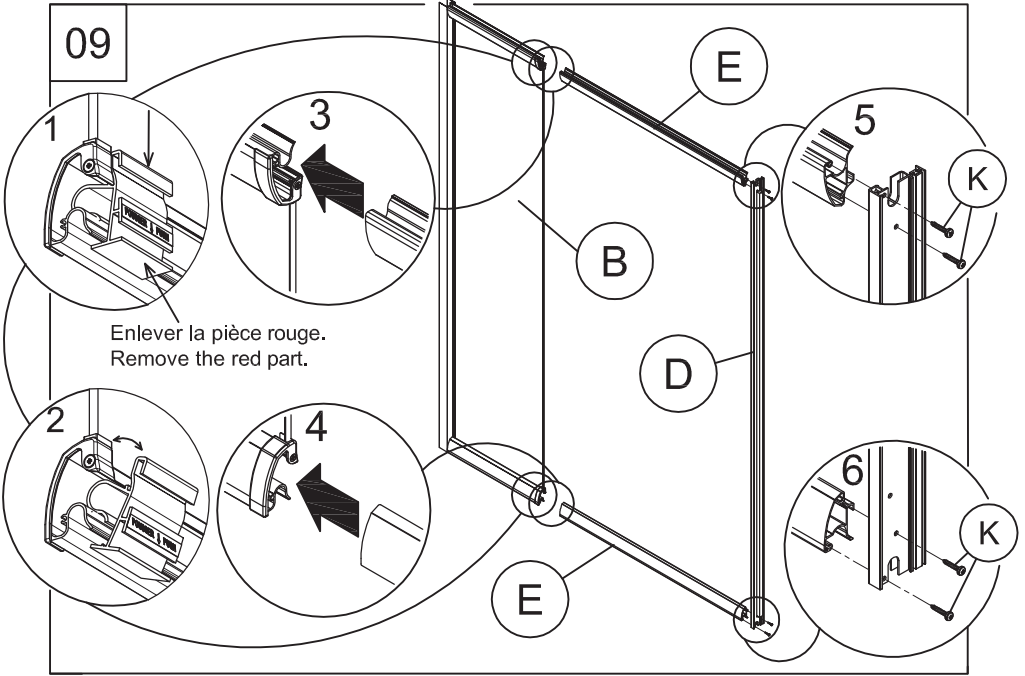

BEFORE INSTALLING YOUR SHOWER ENCLOSURE PLEASE ENSURE THAT THE TRAY SURFACES HAVE BEEN THOROUGHLY CLEANED AND ARE FREE FROM GREASE.

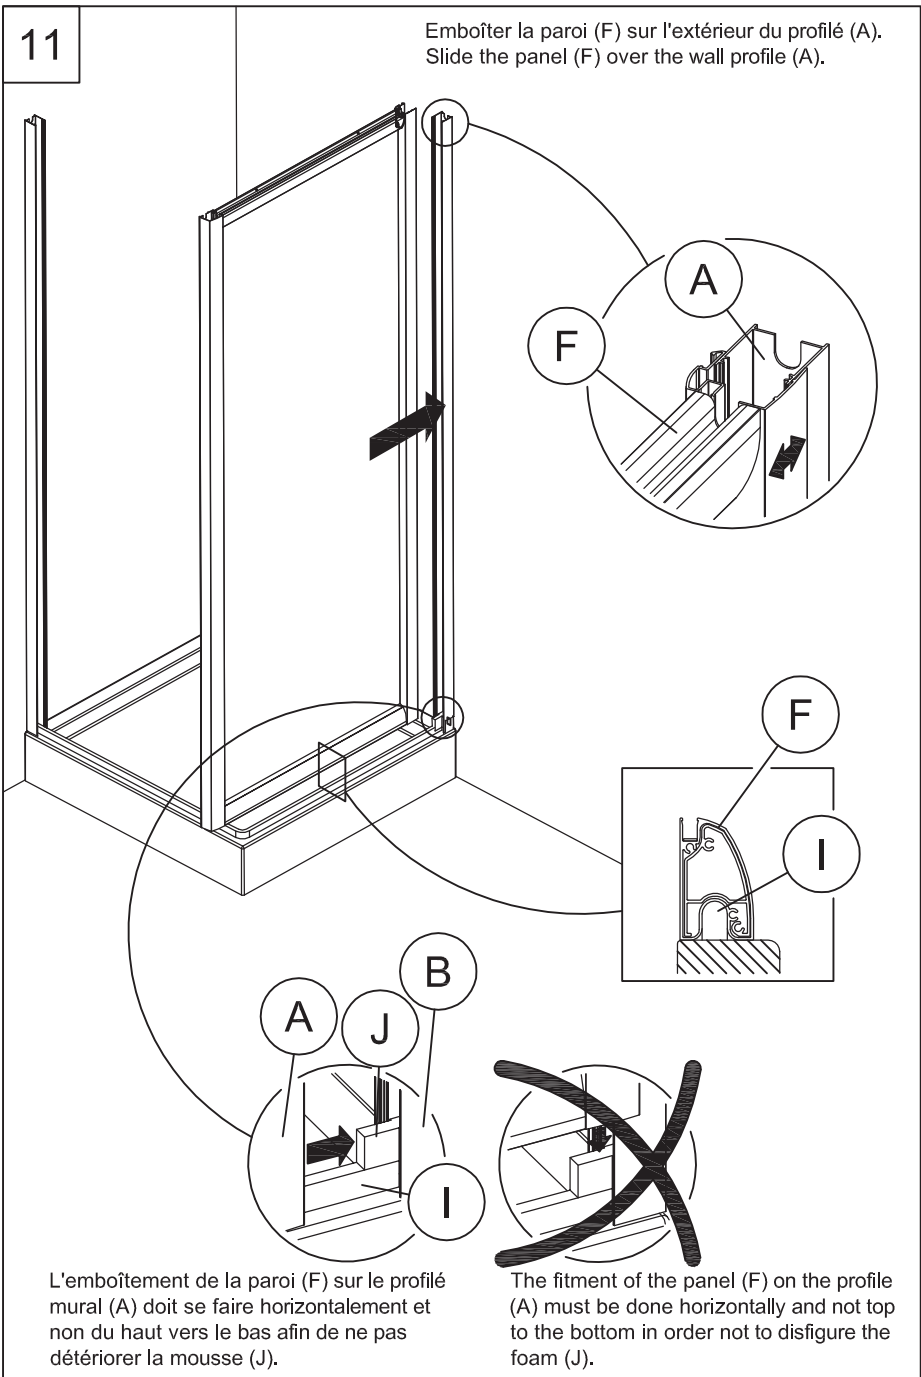

11

Emboîter la paroi (F) sur l'extérieur du profilé (A).
Slide the panel (F) over the wall profile (A).

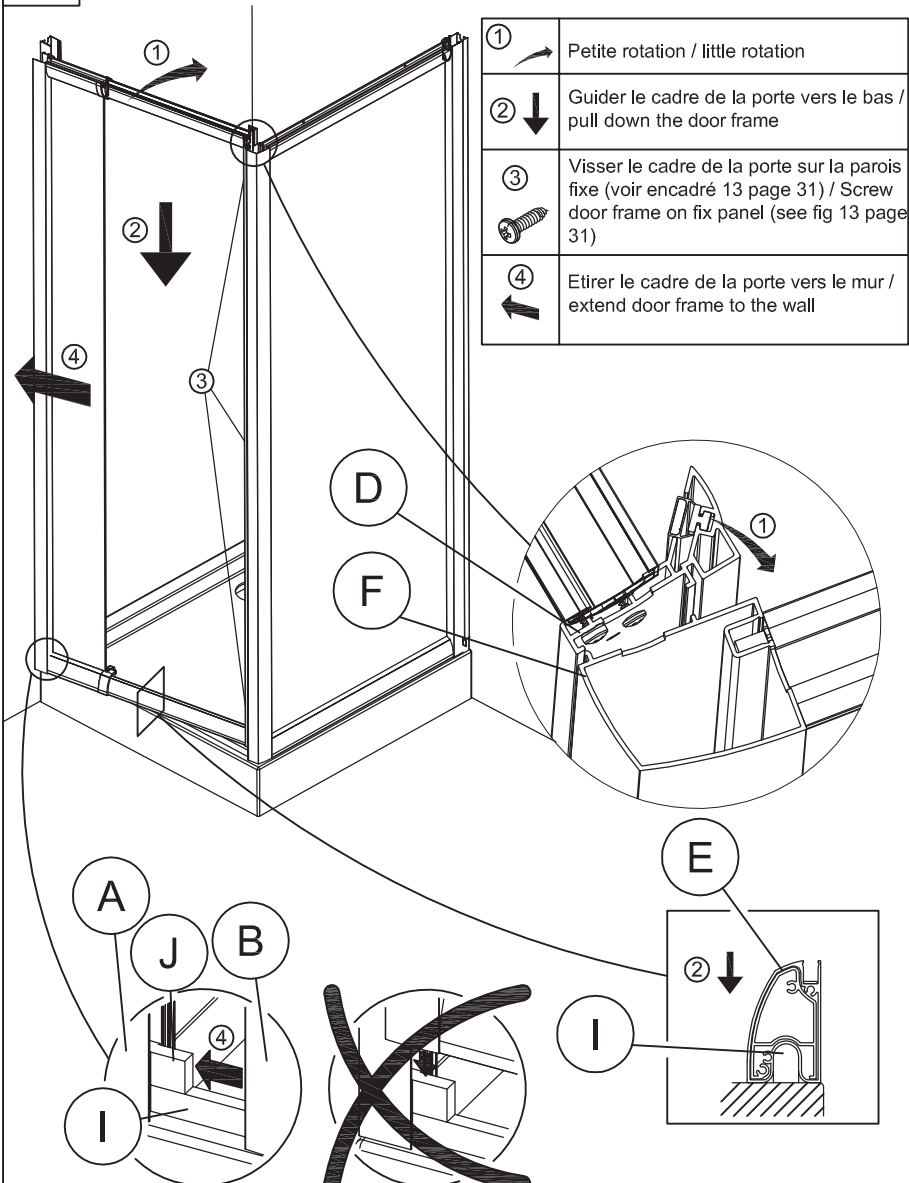

L'emboîtement de la paroi (F) sur le profilé mural (A) doit se faire horizontalement et non du haut vers le bas afin de ne pas détériorer la mousse (J).

The fitment of the panel (F) on the profile (A) must be done horizontally and not top to the bottom in order not to disfigure the foam (J).

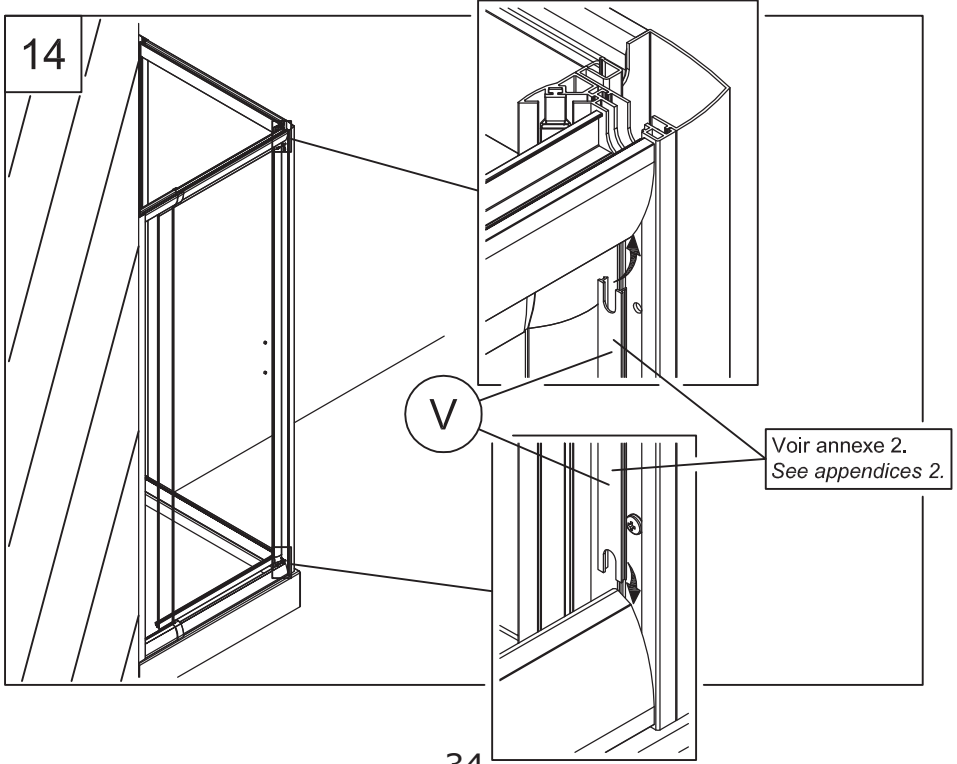

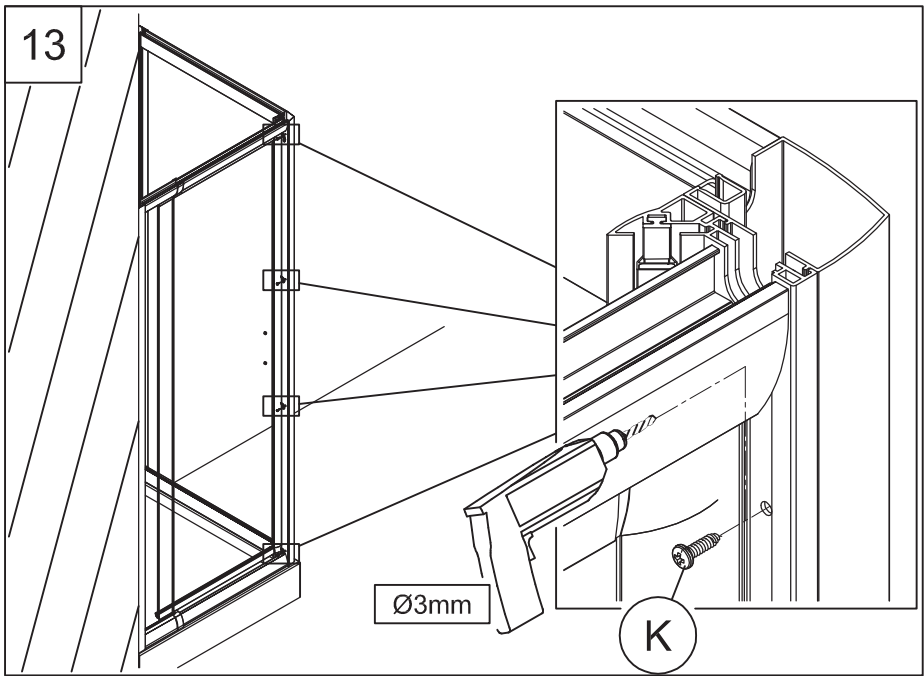

12

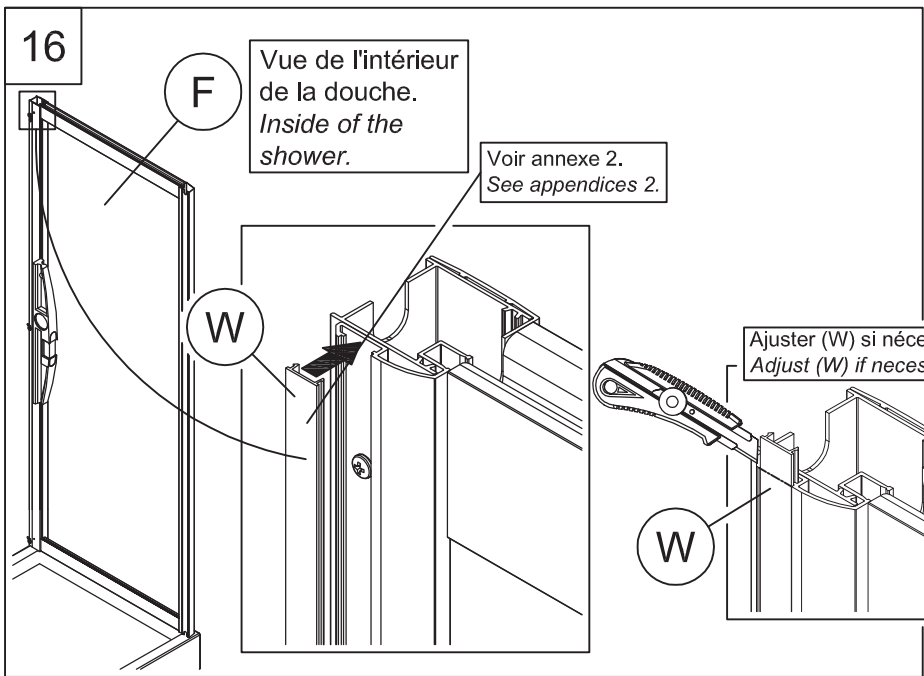

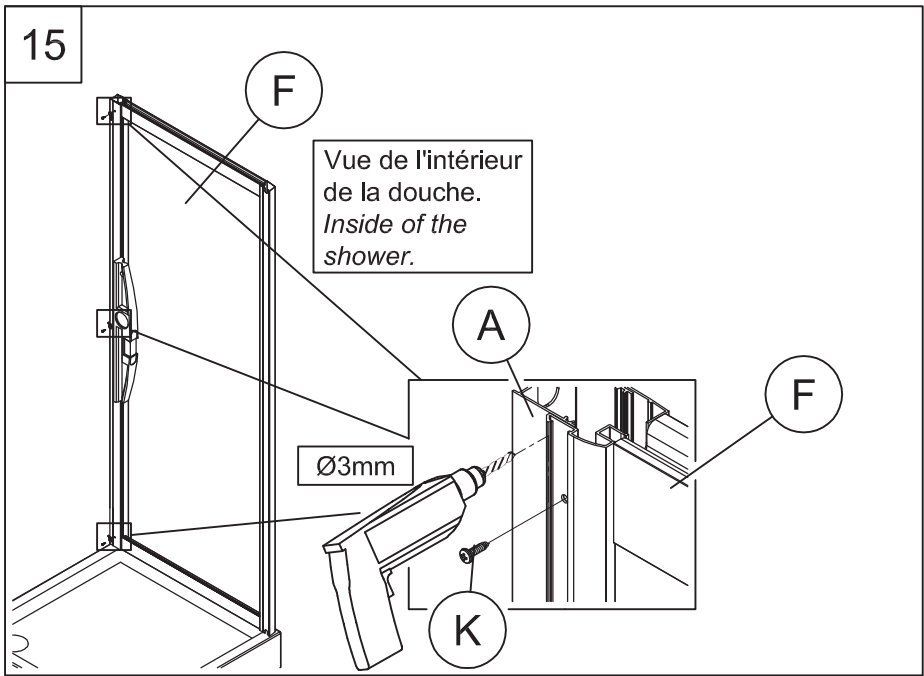

Emboîter avec un légère rotation le cadre de la porte (B) sur l'extérieur du profilé (F) .
Slide the door frame (B) with little rotation over the wall profile (F).

L'emboîtement du cadre de la porte (B) sur le profilé mural (A) doit se faire horizontalement et non du haut vers le bas afin de ne pas détériorer la mousse (J).

The fitment of the door's frame (B) on the profile (A) must be done horizontally and not top to the bottom in order not to disfigure the foam (J).

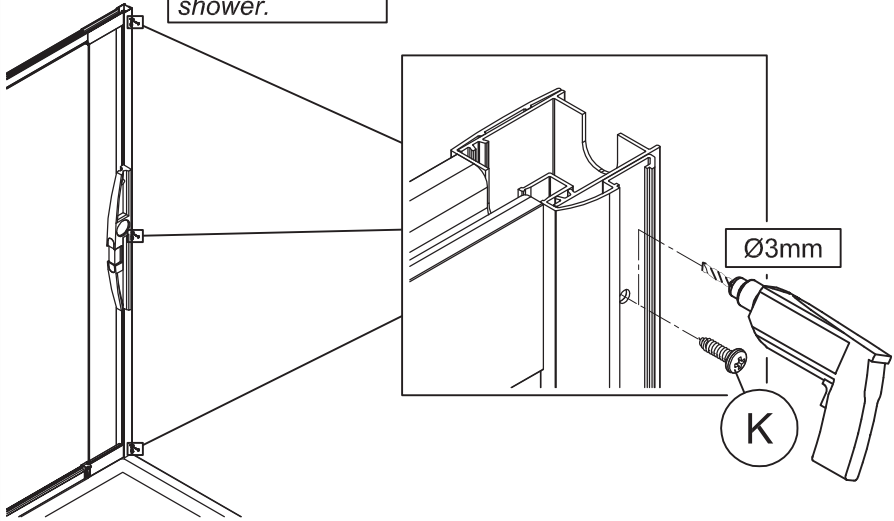

17

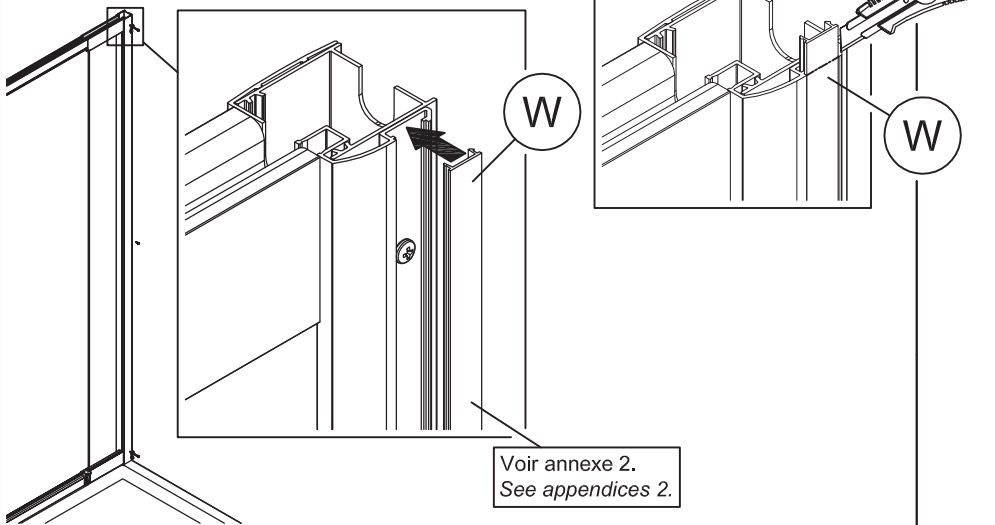

Vue de l'intérieur
de la douche.
Inside of the
shower.

Vérifier l'aplomb du cadre, contrepercer et fixer.
Check the frame is vertical, drill and fix.

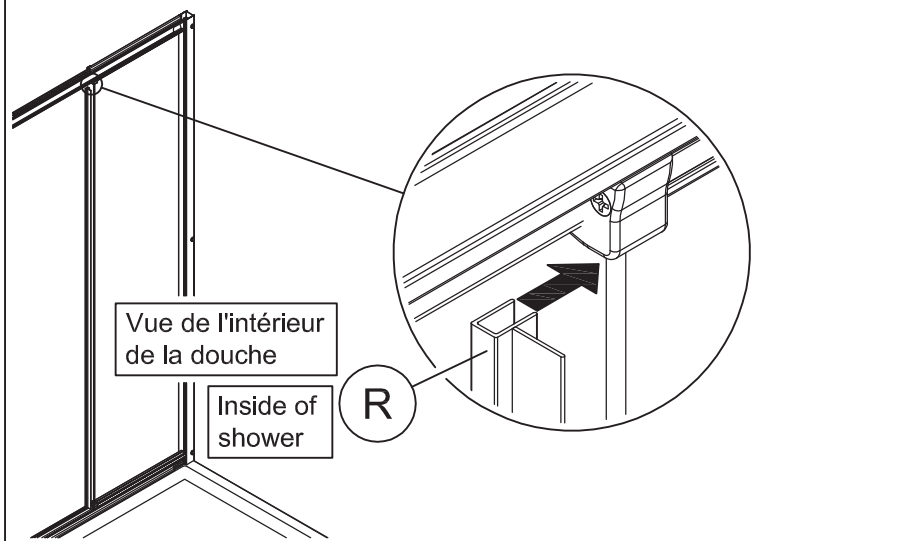

18

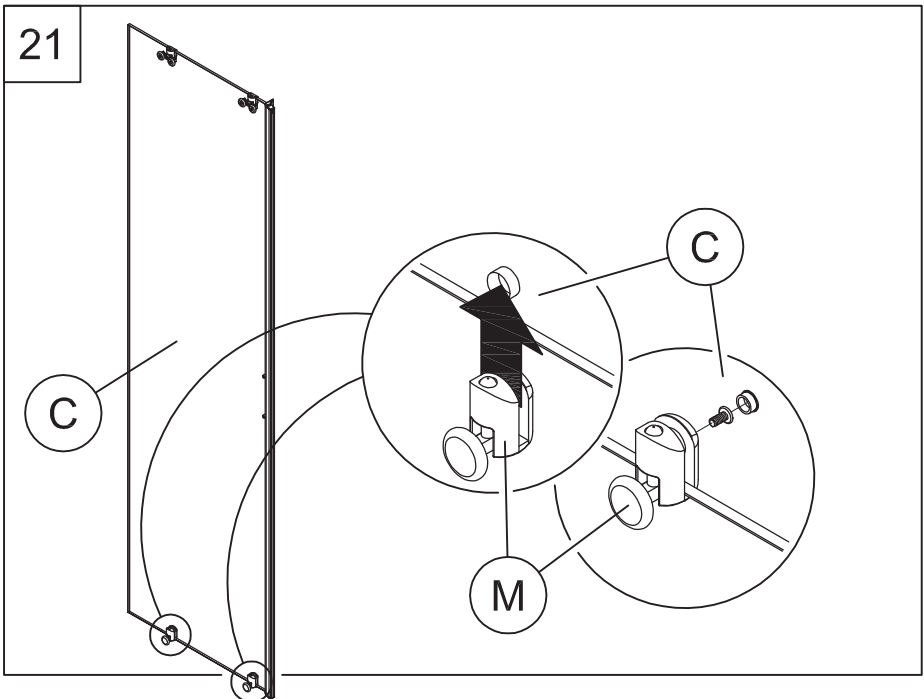

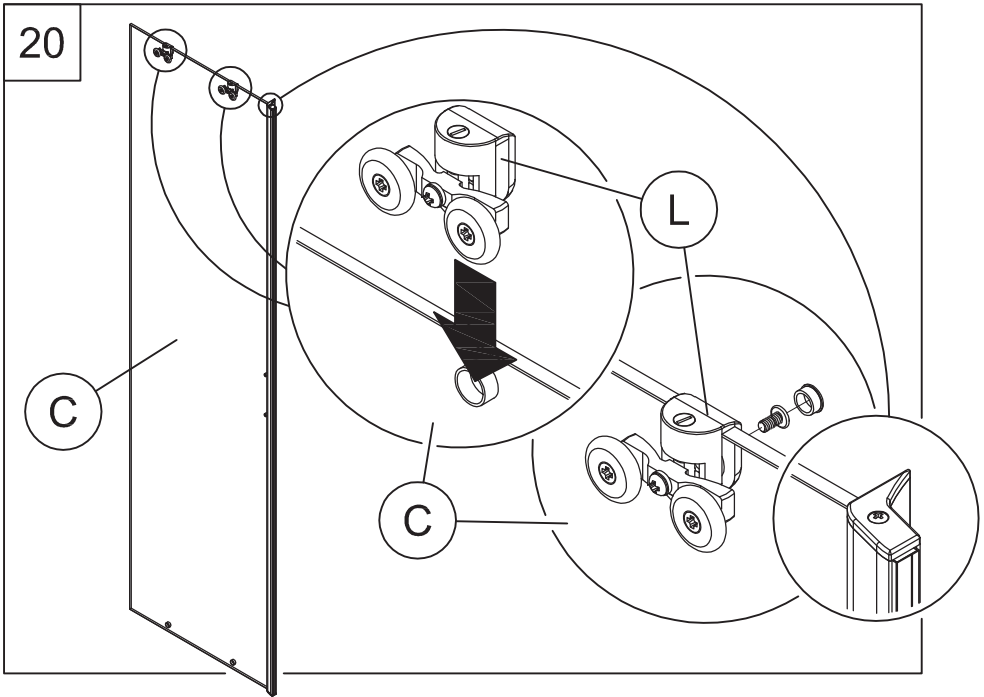

Ajuster (W) si nécessaire.
Adjust (W) if necessary.

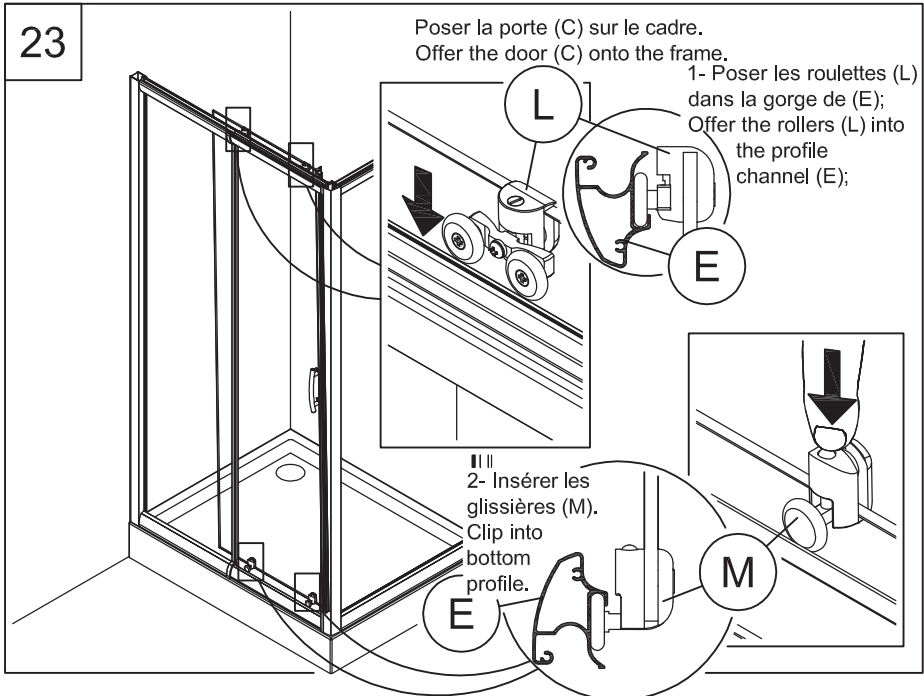

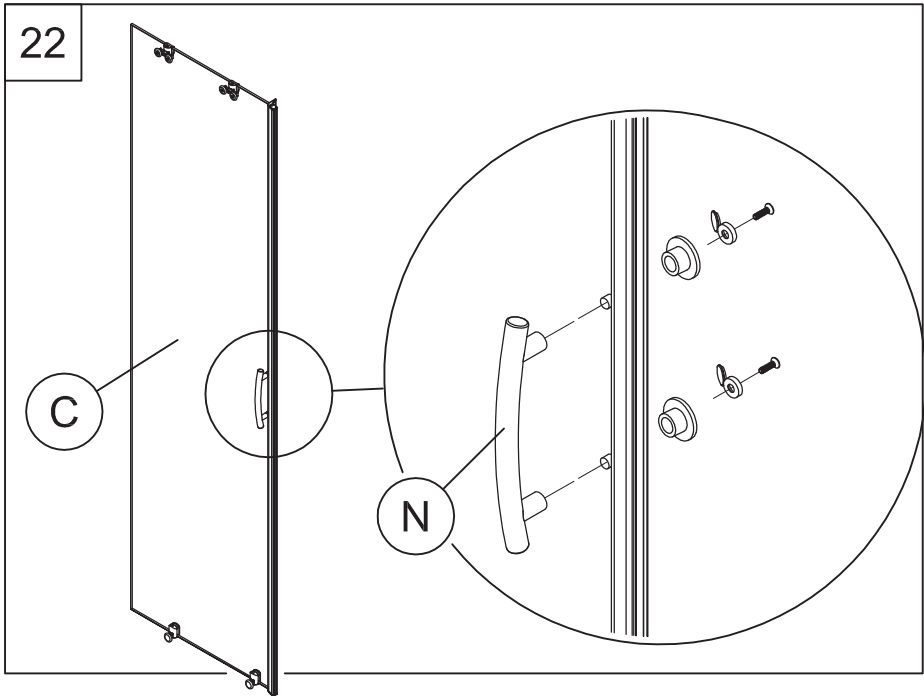

19

Positionner le joint (R) sur le verre fixe.
Attach the seal (R) to the fixed panel.

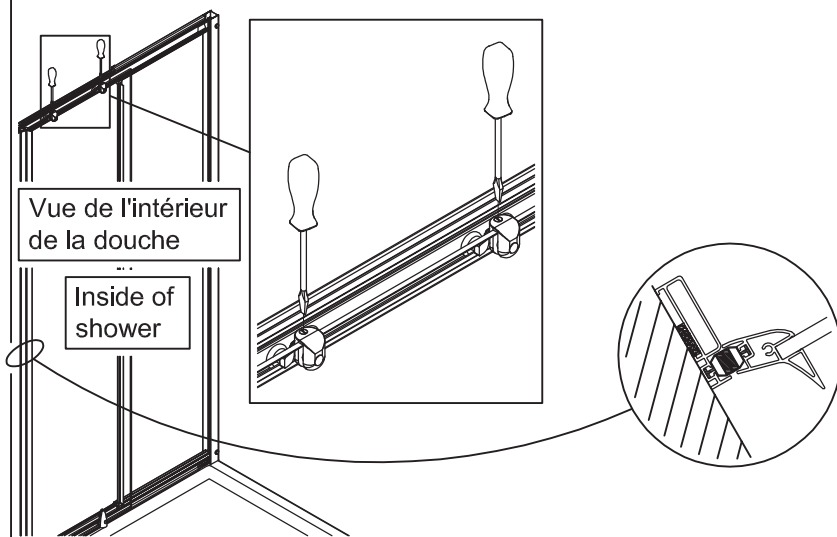

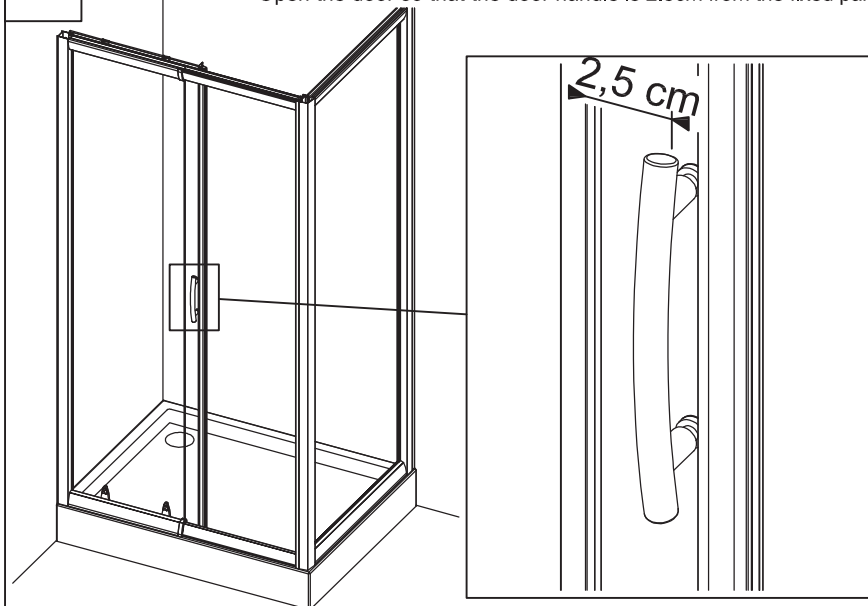

24

Réglage de la porte :
agir sur l'inclinaison de la porte en ajustant les vis des roulettes (L).
Adjust the door via the rollers (L).

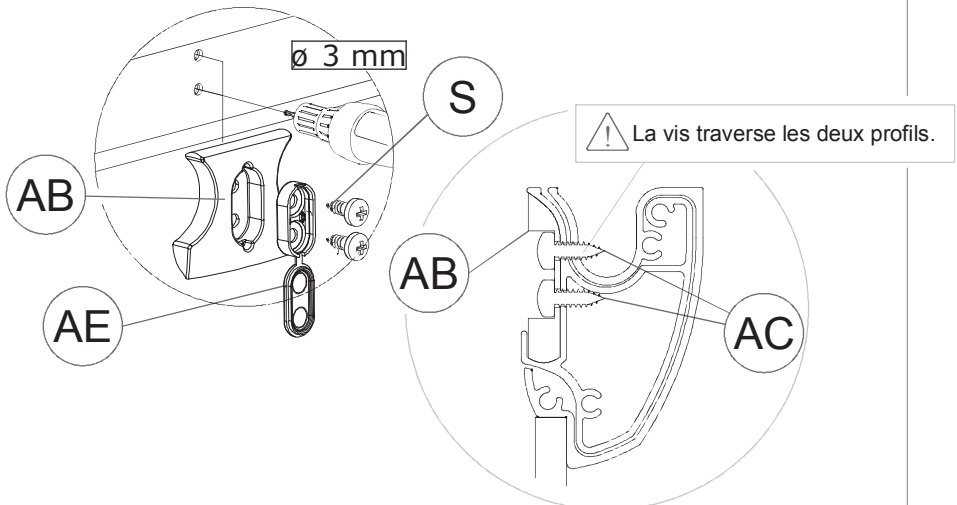

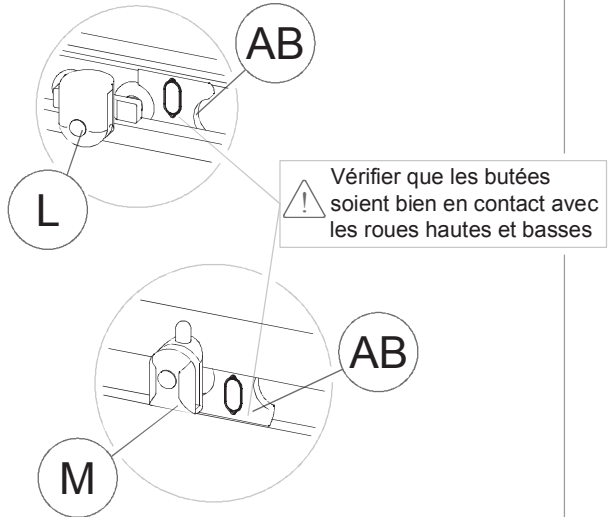

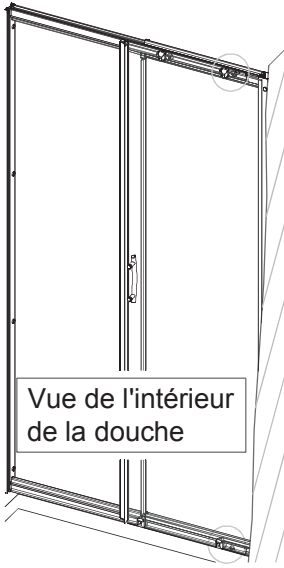

25

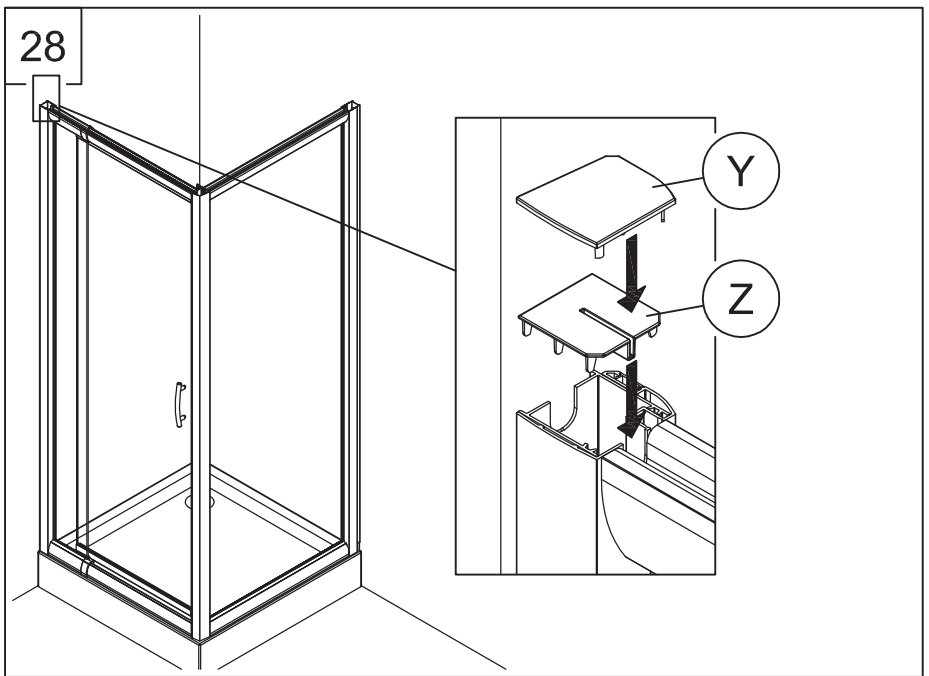

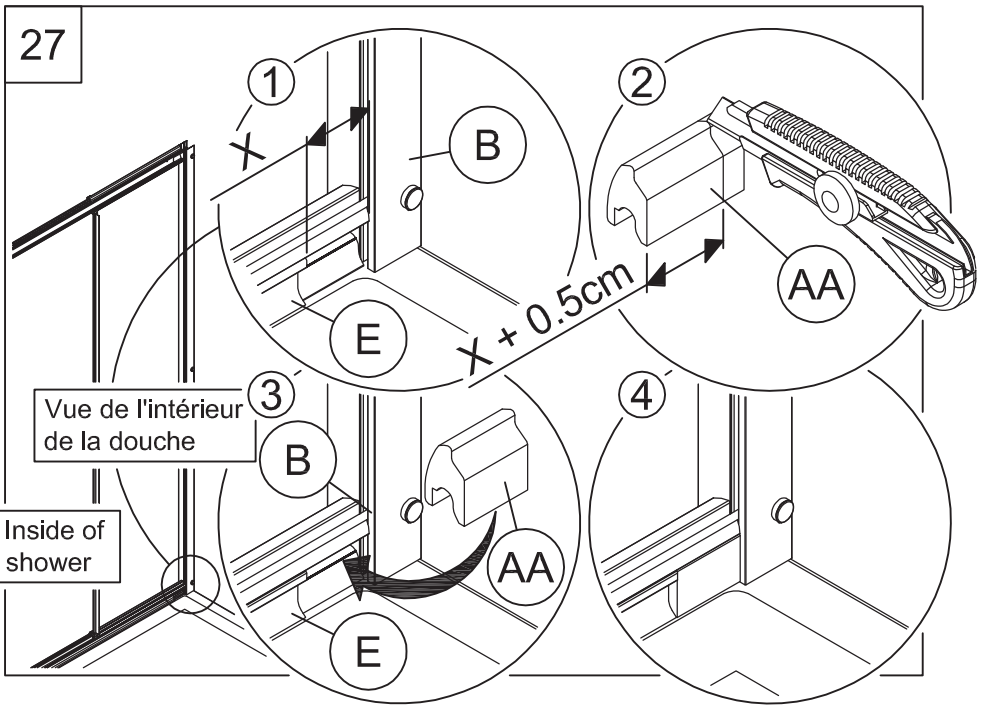

Ouvrir la porte de façon à avoir la poignée à 2,5 cm du verre fixe.
Open the door so that the door handle is 2.5cm from the fixed panel.

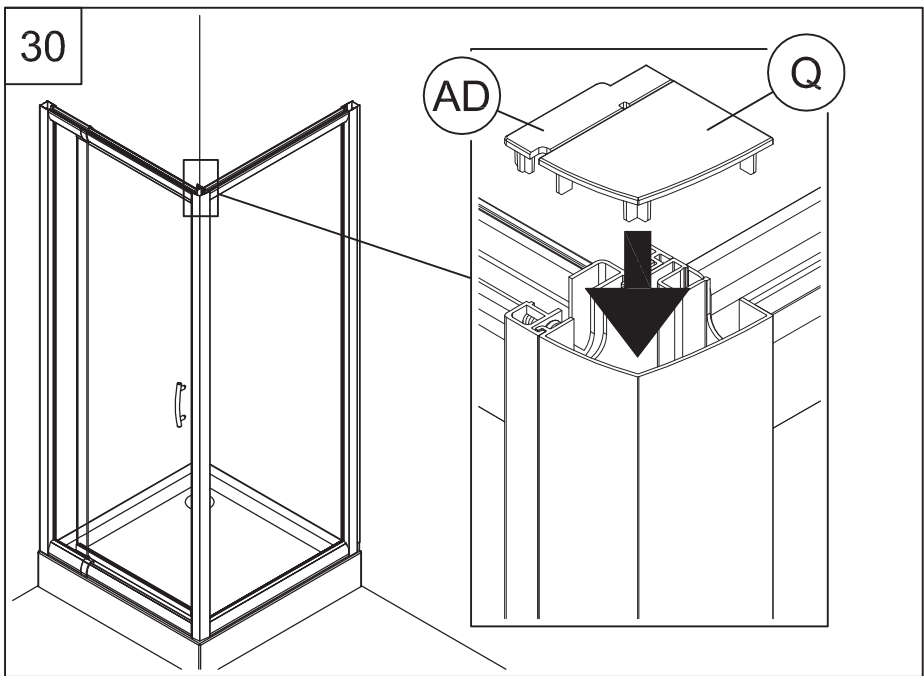

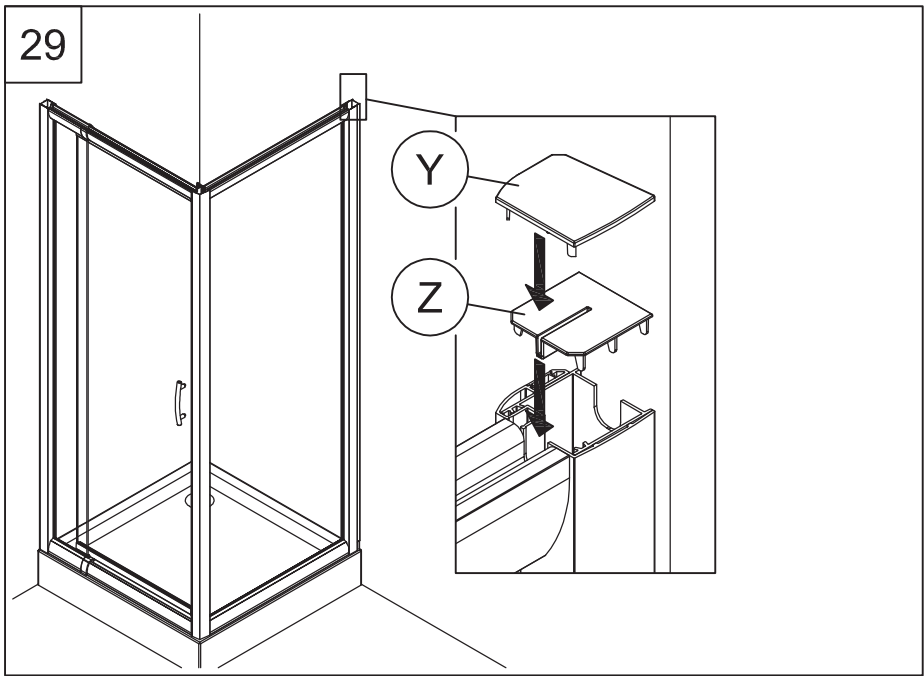

26

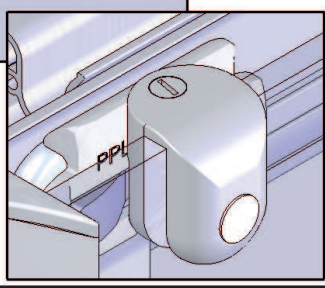

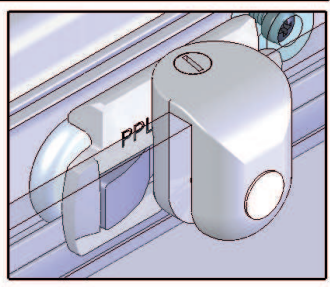

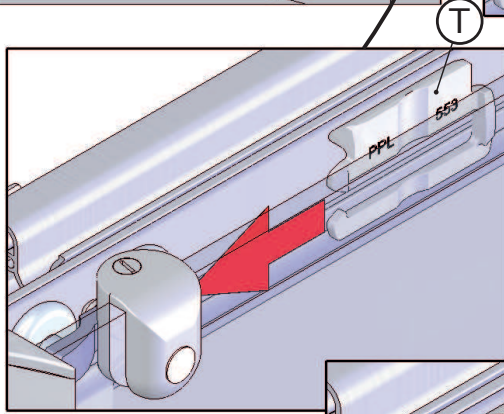

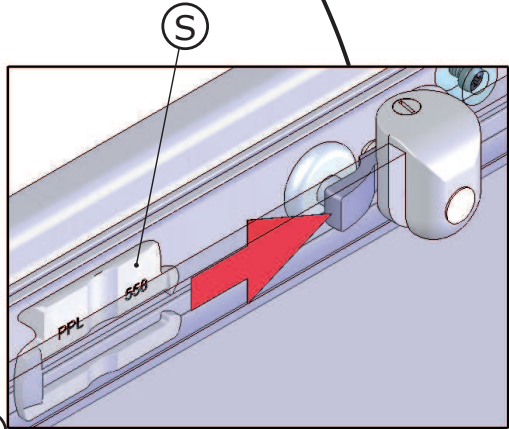

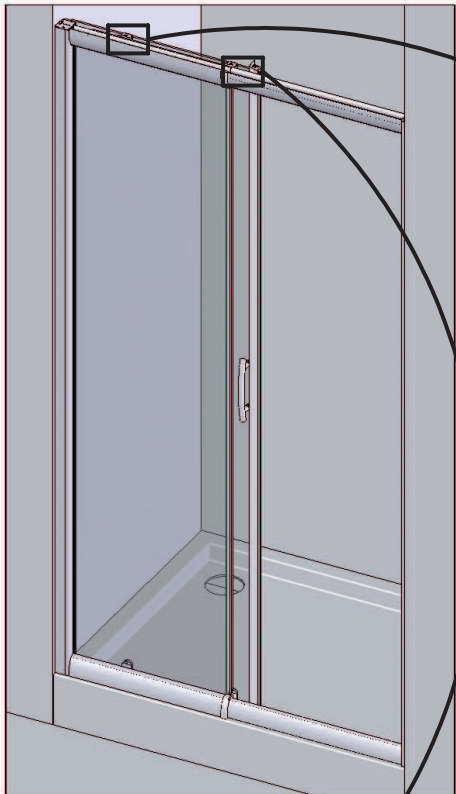

Fixer les butées (AB) afin :
 - de bloquer l'ouverture de la porte dans la position
 précédemment réglée,
 - et de bloquer les extensions (E).
 Fix the door stops so that it opens correctly.

CONSEIL D'ENTRETIEN : *MAINTENANCE'S ADVICES :*

Pour votre confort d'utilisation, les vitrages des parois de douche sont traités avec une protection anti-calcaire.

Grâce à ce traitement, l'eau et les salissures glissent plus facilement sur le verre. Il devient plus facile et rapide de nettoyer les surfaces vitrées et les profilés aluminium.

Il est recommandé de les nettoyer à l'éponge avec des produits classiques de nettoyage non abrasifs. Vous ne devez pas utiliser de poudre et de crèmes abrasives, détergents chimiques, alcools trichloéthylène, éponges abrasives car il peuvent altérer le traitement de protection anticalcaire des parois en verre.

Rincer abondamment à l'eau clair, essuyer avec un chiffon doux.

For your comfort of use, all glass surfaces are treated with an anti liming protection.

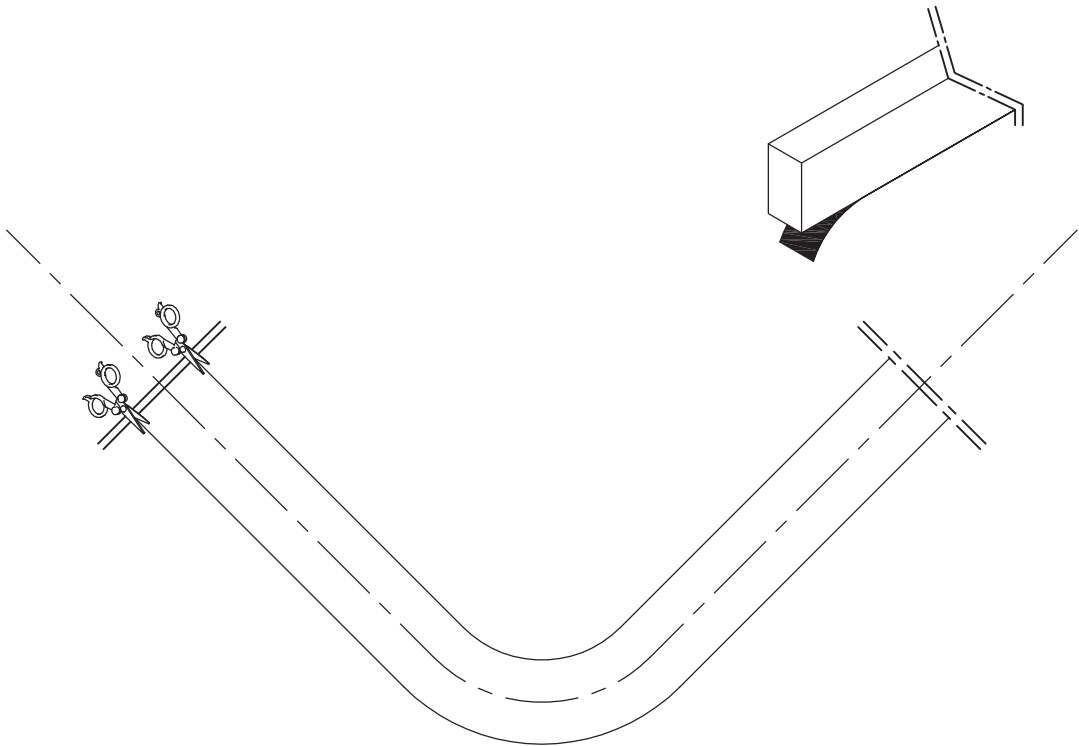

This treatment aids glass cleaning by reducing the build up of lime scale. It becomes easier and faster to clean the glass and aluminium profiles.

Clean the glass using warm soapy water, rinse clean and dry with a clean cloth. Abrasive cleaners should not be used.
